Inspiration for **Continuous Paducah Patterns**

For 20 years quilters have been coming to Paducah's annual AQS Quilt Show for inspiration. Fortunately, I live here year round and find plenty of pattern ideas in the town's historic and architecturally enhanced buildings. From carved wooden porches to filigree street lights, design ideas surround us wherever we live – we only need to look! A cast iron plant stand inspired these three patterns.

Notice how the simple act of overlapping the scroll lines * in different directions can create an entirely new shape. An enlarged pattern can be autographed as a souvenir block. ■

Helen Squire is the author and designer of the Dear Helen quilting design book and CD-rom pattern series. She resides in Paducah, Kentucky. Visit her on the Web at www.helensquire.com.
